

Marked **CE**

Tie down hooks (4 rings) for the front facing transport of the user in moving vehicles (private cars, conformed buses etc.)

AS STANDARD

## FEATURES

- **FRAME** made of chromed steel, painted with non-toxic epoxy powder paint. Narrow base to facilitate entering elevators.
- The seat and backrest are covered with visco-elastic fire-proof material. It is resistant, breathable and anti-slip. It is made of a special and exclusive ORMESA formula:
  - 1) It adapts to the user's body shapes and it prevents its sliding, with the result of an **EXCELLENT COMFORT and KEEPING POSTURE**, even when changing the backrest recline and tilt (it adapts to the user's body shapes maintaining its support function).
  - 2) Easily washable to keep the **HYGIENE** of the user; It lets **AIR PASS** keeping the **OPTIMAL MICROCLIMATE** that **HELPS PREVENTING BED SORES**.
  - 3) Durable and fireproof, **GUARANTEE OF DURABILITY and SAFETY**.
  - 4) Ergonomic, breathable, non-toxic, fireproof **UPHOLSTERY**; It does not interfere with the benefits of the visco-elastic cover. The upholstery is fixed with buttons, easy to remove for machine washing.
- Ergonomic **BACKREST**, it holds the shapes of the user. **The special structure of the backrest gives a proper alignment to the trunk and it doesn't generate any pressure on the spine**. Adjustable in tilt by levers with safety pin. The pin allows blocking the levers to maintain the proper adjustment for the user, height adjustable, folding for transportation.
- Low **SEAT** and slightly inclined. Adjustable in depth on four positions.
- Wide and wrap **HEADREST**, padded, multi adjustable (in height, tilt, depth, lateral traslation); thus assuring the **proper alignment between head and trunk**, without interfering with the user's view. Anti-bacterial and Hygienic.
- **ARMRESTS**, padded, easily and stably adjustable in height thanks to the lever.
- **PUSH HANDLE** adjustable in tilt/ height, it helps the care.
- **CONTINUOUS AND WITHOUT EFFORT ADJUSTMENTS**: tilting, backrest recline and legrest tilt are operated by independent gas springs.
- **SIDES** with scissor opening. Thanks to the special joint, the armrests are positioned behind the backrest, eliminating completely all obstacles to the transfer.
- **LEG RESTS**: ergonomic, removable, turnable and adjustable in tilt without effort, activated with gas springs.
- **CALFRESTS** adjustable in depth and free tilt to accommodate the movements of the leg.
- **FOOT RESTS**, adjustable in flexion-extension and height.
- **8" front solid swiveling wheels and 12" rear wheels**; drum brakes are operated by a single control pedal.
